# **TRAINING OPPORTUNITIES AT TSC-OFT**

TSC has several ways for your soldiers to receive valuable marksmanship, call-for-fire and Javelin BST training. Our Observed Fire Trainer (OFT) section is home to high-tech training that can help your personnel stay

sharp. Don't let the name fool you, there is more going on in addition to call-for fire training.

## **ENGAGEMENT SKILLS TRAINER**

**(EST) 2000** - This is a small-arms (rifles, pistols and crew-serve weapons) trainer. It features marksmanship, shoot-don't-shoot (judgmental) and collective task scenarios. This system is an excellent preparatory marksmanship training tool and it is available in five and ten-lane configurations. When soldiers fire one of the many weapons that the system can simulate, they feel the recoil of the weapon and the sounds associated with that weapon. For realism, a behind-the-scenes air compressor supplies the kick of the weapon and an integrated sound system provides realistic audio. The EST 2000 also allows an instructor to quickly diagnose problems shooters may be having by showing the movements of the weapon two seconds before and after firing. **TRAINERS:** An Officer or NCO must be present during training with the EST 2000.

**WEAPONER** - The Weaponer is a Basic Rifle Marksmanship trainer that simulates the live-fire conditions of an M-16 A1 rifle. It is used to provide sustainment training in all elements of Basic Rifle Marksmanship. In order to request a Weaponer system on loan, you must be certified in its operation by taking a class given by instructors at the OFT facility.

**JAVELIN** - The Javelin Basic Skills Trainer (BST) provides ongoing training and familiarization with this shoulder-mounted weapons system. The Javelin is the world's first one-man portable and employable fire-and-forget medium-range missile system suitable for all environments. Personnel can conduct all gunnery and weapons checks as well as training with the thermal night sight vehicle identification system while in a classroom environment. **TRAINERS:** Personnel using this system must be Javelin certified.

**OBSERVED FIRE TRAINER (CALL FOR FIRE)** - Valuable training is available for your personnel on our 1-on-30 and our 1-on-5 Observed Fire Trainer systems. These systems provide realistic instruction to Forward Observers in the observation and adjustment of artillery fire and fire planning on a variety of targets. **TRAINERS:** To use this system, you must be a certified operator with GUARDFIST IIA.

These trainers are available to soldiers needing call-for-fire, marksmanship or scenario training. Personnel utilizing them can expect increased familiarization with the respective weapons systems and enhanced marksmanship skills.

To get your soldiers signed up to train on these systems, visit Building 19031 to check the schedule for availabilities and to fill out a work order.
